EXECUTIVE EDITOR

Vidya Surwade

Associate Professor, Dr Baba Saheb Ambedkar, Medical College & Hospital, Rohinee, Delhi

INTERNATIONAL EDITORIAL ADVISORY BOARD

1. **Dr. Abdul Rashid Khan** B. Md Jagar Din, (*Associate Professor*)
Department of Public Health Medicine, Penang Medical College, Penang, Malaysia
2. **Dr. V Kumar** (*Consulting Physician*)
Mount View Hospital, Las Vegas, USA
3. **Basheer A. Al-Sum**,
Botany and Microbiology Deptt, College of Science, King Saud University,
Riyadh, Saudi Arabia
4. **Dr. Ch Vijay Kumar** (*Associate Professor*)
Public Health and Community Medicine, University of Buraimi, Oman
5. **Dr. VMC Ramaswamy** (*Senior Lecturer*)
Department of Pathology, International Medical University, Bukit Jalil, Kuala Lumpur
6. **Kartavya J. Vyas** (*Clinical Researcher*)
Department of Deployment Health Research,
Naval Health Research Center, San Diego, CA (USA)
7. **Prof. PK Pokharel** (*Community Medicine*)
BP Koirala Institute of Health Sciences, Nepal
8. **Sajjad Salim Issa AL-Musawi**, Supervisor for Student of the Arab
Board in Family Medicine
9. **Prof. Dr. Ayad F. Alkaim**, Professor of Surface Chemistry and
Applications of Nano-materials, Babylon University, Iraq

NATIONAL SCIENTIFIC COMMITTEE

1. **Dr. Anju Ade** (*Associate Professor*)
Navodaya Medical College, Raichur, Karnataka
2. **Dr. E. Venkata Rao** (*Associate Professor*) Community Medicine,
Institute of Medical Sciences & SUM Hospital, Bhubaneswar, Orissa.
3. **Dr. Amit K. Singh** (*Associate Professor*) Community Medicine,
VCSG Govt. Medical College, Srinagar – Garhwal, Uttarakhand
4. **Dr. R G Viveki** (*Professor & Head*) Community Medicine,
Belgaum Institute of Medical Sciences, Belgaum, Karnataka
5. **Dr. Santosh Kumar Mulage** (*Assistant Professor*)
Anatomy, Raichur Institute of Medical Sciences Raichur(RIMS), Karnataka
6. **Dr. Gouri Ku. Padhy** (*Associate Professor*) Community and Family
Medicine, All India Institute of Medical Sciences, Raipur
7. **Dr. Ritu Goyal** (*Associate Professor*)
Anaesthesia, Sarswathi Institute of Medical Sciences, Panchsheel Nagar
8. **Dr. Anand Kalaskar** (*Associate Professor*)
Microbiology, Prathima Institute of Medical Sciences, AP
9. **Dr. Md. Amirul Hassan** (*Associate Professor*)
Community Medicine, Government Medical College, Ambedkar Nagar, UP
10. **Dr. N. Girish** (*Associate Professor*) Microbiology, VIMS&RC, Bangalore
11. **Dr. BR Hungund** (*Associate Professor*) Pathology, JNMC, Belgaum.
12. **Dr. Sartaj Ahmad** (Assistant Professor),
Medical Sociology, Department of Community Medicine, Swami Vivekananda Subharti
University, Meerut, Uttar Pradesh, India
13. **Dr Sumeeta Soni** (Associate Professor)
Microbiology Department, B.J. Medical College, Ahmedabad, Gujarat, India

NATIONAL EDITORIAL ADVISORY BOARD

1. **Prof. Sushanta Kumar Mishra** (Community Medicine)
GSL Medical College – Rajahmundry, Karnataka
2. **Prof. D.K. Srivastava** (*Medical Biochemistry*)
Jamia Hamdard Medical College, New Delhi
3. **Prof. M Sriharibabu** (*General Medicine*) GSL Medical College, Rajahmundry,
Andhra Pradesh
4. **Prof. Pankaj Datta** (*Principal & Prosthodontist*)
Indraprastha Dental College, Ghaziabad

NATIONAL EDITORIAL ADVISORY BOARD

5. **Prof. Samarendra Mahapatro** (*Pediatrician*)
Hi-Tech Medical College, Bhubaneswar, Orissa
6. **Dr. Abhiruchi Galhotra** (*Additional Professor*) Community and Family
Medicine, All India Institute of Medical Sciences, Raipur
7. **Prof. Deepti Pruthvi** (*Pathologist*) SS Institute of Medical Sciences &
Research Center, Davangere, Karnataka
8. **Prof. G S Meena** (*Director Professor*)
Maulana Azad Medical College, New Delhi
9. **Prof. Pradeep Khanna** (*Community Medicine*)
Post Graduate Institute of Medical Sciences, Rohtak, Haryana
10. **Dr. Sunil Mehra** (*Paediatrician & Executive Director*)
MAMTA Health Institute of Mother & Child, New Delhi
11. **Dr Shailendra Handu**, *Associate Professor*, Phrma, DM (Pharma, PGI
Chandigarh)
12. **Dr. A.C. Dhariwal**: *Directorate* of National Vector Borne Disease
Control Programme, Dte. DGHS, Ministry of Health Services, Govt. of
India, Delhi

Print-ISSN: 0976-0245-Electronic-ISSN: 0976-5506, Frequency: Monthly

Indian Journal of Public Health Research & Development is a double blind peer reviewed international journal. It deals with all aspects of Public Health including Community Medicine, Public Health, Epidemiology, Occupational Health, Environmental Hazards, Clinical Research, and Public Health Laws and covers all medical specialties concerned with research and development for the masses. The journal strongly encourages reports of research carried out within Indian continent and South East Asia.

The journal has been assigned International Standards Serial Number (ISSN) and is indexed with Index Copernicus (Poland). It is also brought to notice that the journal is being covered by many international databases. The journal is covered by EBSCO (USA), Embase, EMCare & Scopus database. The journal is now part of DST, CSIR, and UGC consortia.

CONTENTS

Volume 9, Number 8

August 2018

1. Knowledge, Attitudes, and Practices of Pesticides Use Toward the Cholinesterase Enzyme in Vegetable Farmers
Kusrini Wulandari, Wakhyono Budianto, Kuat Prabowo, Asep Tata Gunawan, Ismi Rajiani 01
2. A Cross-Sectional Study to Assess the Quality of Sleep and Level of Stress among First Year Medical Students in a Private Medical College in Chennai, Tamil Nadu 06
Prashanth Rajendran, Gomathy Parasuraman, Dinesh Raja J, Krithiga S, Timsi Jain, Ruma Dutta
3. Profile, Knowledge and Problems of Grass Roots Level Workers and Service Delivery by them in ICDS Blocks: A Cross Sectional Study 11
Roshni Vakilna, Vanisha Nambiar, Rujuta Desai
4. A Comparative Study on Normal Symptomatic Medication with *Andrographis Paniculata* (Nila-Vembu) Extract on Platelets Count in Thrombocytopenia Patient affected from Dengue Fever 16
Naveenkumar C, Swathi S, Srikumar R, Sairavikiran B, Prabhakarreddy E
5. Evaluation of the Rationality of Claims Made in Drug Promotional Literature Using World Health Organization Guidelines 21
Arsh Chowdhary, Sarang A Deshmukh, Uma Bhosale
6. An Assessment of Water, Sanitation and Hygiene Practices in an Urban Slum of Visakhapatnam, Andhra Pradesh 26
M Sindhura, Chandrasekhar Vallepalli, B Devi Madhavi, S Appalanaidu
7. Comparative Prevalence and Pattern Analysis of Liver Abscesses in Alcoholic and Non-Alcoholic Patients.. 31
Anoop Chhabra, Bhuvnesh Yadav, Anil Kumar
8. Effectiveness of House of Recovery Stunting (HRS) to Reducing Stunting Child Below Two Years Old at Streams Area 34
Atikah Rahayu, Fahrini Yulidasari, Nur Laily, Hurul Firdha, M Anshori Rahman
9. Study to Assess the Effectiveness of Self Instructional Module on Neonatal Rearing Practices 37
Geeta Rawat
10. Incidence of Gestational Hypertension among Pregnant Women in the Rural Population of District Amritsar- A Community based Study 42
Kuldip Raj, Aditya Paul, Kritika Bansal, Priyanka Devgun, Utkarsh Passi
11. Comparison of the Psychosocial well-being of HIV Infected and HIV affected Adolescents Availing Services of State AIDS Control Society (SACS) in Kerala 48
Swapna KG, Valsamma Joseph

12. Implementation of Family Planning Program Policy based on Culture in Jayawijaya Province of Papua 54
Saparuddin Latu, Indar, Alimin Maidin, Darmawansyah, Sukri Palutturi
13. Prevalence of Prediabetes among Traditional Population, Jenukuruba Tribal Children in Mysore District 59
HS Rajani, D Narayanappa, K Jagadish Kumar, VG Manjunath
14. Burnout Syndrome and Associated Factors among Dental Students 63
Yeturu Sravan Kumar, Kalyana-Chakravarthy Pentapati, Athira Cherakkal Methayil, Arsha Darsh
15. Status of Public Health Care Delivery System– A Case Study of Nagaon and Nalbari Districts of Assam (India) 68
Nirmala Devi
16. A Structural Equation Model of Tuberculosis (TB) Infection in Children 73
M Choiroel Anwar, Asep Tata Gunawan, Teguh Widyanto, Suparmin, Marsum, Ismi Rajiani
17. A Correlation of National Health Insurance Self-Enrolled Member’s Satisfaction on Healthcare Services with Premium Payment 78
Renny Nurhasana, Budi Hidayat, Pujiyanto, Teguh Dartanto
18. Study of Pleural Fluid to Serum Cholinesterase Ratio to Differentiate between Transudative and Exudative Pleural Effusions 85
Rajesh B P, Hemant K Kulkarni, Sreenath Nair
19. A Study of Factors affecting Utilization of OT 91
A P Pandit, Tushar G Dive, Anupam Karmakar
20. A Cross-Sectional Study of Prevalence of Hypertension among Women of Reproductive Age in Rural Community of Amritsar – A Community based Study 96
Kuldip Raj, Kritika Bansal, Utkarsh Passi, Aditya Paul Singh, Priyanka Devgan
21. Perception and Feedback of Final Year Medical Students on Teaching-Learning Methods in Andhra Medical College, Visakhapatnam 101
Chandrasekhar Vallepalli, B Devi Madhavi, S Appala Naidu
22. Social Correlates of Tobacco Consumption among the Medical Students in Meerut 107
Bhawana Pant, Arvind K Shukla, Sartaj Ahmad, Shalki Mattas
23. Neuroretinal Rim Criteria Support an Ischemic Theory for Glaucomatous Optic Neuropathy 112
Zainab Adel Hashim
24. Awareness of Breast Cancer and Breast Self-Examination among Female Non-Medical University Students 117
Raynushaa Pillai, Kavitha Ashok Kumar, Ashok Kumar Jeppu
25. Knowledge and Awareness of Basic Life Support among Interns of a Dental College in Mangalore, India .. 124
Karthik Shetty, Roma M, Mranali Shetty
26. Financial Feasibility of Selected Cardiology Surgeries Under Community Based Health Insurance Schemes in a Tertiary Care Hospital in South India 129
Harikrishnan P, Lena Ashok, Kramer Stallone D’Lima, Manthan Janodia, Ida D’Souza, Namesh Malarout, Scholar, Rajesh Kamath
27. Effectiveness of an Organized Play Session among Hospitalized Children and Parents’ Attitude 137
Manjula Bhama O M, Anila K P, Anju Philip T

28. Study of Bed Allocation and Utilisation in a Tertiary Care Teaching Hospital in South India 143
Nazmin Banu, Lena Ashok, Namesh Malarout, Zakariya Chouhan, Keerthi Haripriya, Gorja Siddhardha Naidu, Rajesh Kamath
29. Evaluating Accuracy of Shade Matching in a Cross-Section of Dentists in a Dental Institute, Karnataka, South India 149
Divya Raigangar, Shobha J Rodrigues, Vidya K Shenoy, Thilak B Shetty, Umesh Y Pai, Mahesh M, Puneeth Hegde
30. Assessment of Competency based Medical Internship Training with ‘Cumulative Grade Points Average System’ - An Innovative Step Towards Meeting ‘Vision 2015’ of Medical Council of India 155
R C Goyal, Sonali G Choudhari, S R Tankhiwale
31. Knowledge and Support of Family Members in the Management of Diabetes Mellitus among Diabetic Adults 163
Athul Jayan, Neha Patil, Praveen, Priyal Jovita Noronha, Wilma Sandra D’ Souza, Malathi G Nayak, Vinish V
32. A Cross Sectional Study to Assess Relationship between Parental Locus of Control and Caries Experience in Preschool Children of Belgaum City 169
Roopali M Sankeshwari, Anil V Ankola, Vinayak Kamath
33. Awareness Regarding Immunization among Mothers of Children from Northern Kerala Attending Pediatric Units, AIMS Kochi 175
Jayakrishnan R, Ankila Jimmy, Athira Reji
34. A Pre-screening Method for Cardiac Anomalies Detection using Phonocardiography Signals 180
Amandeep Cheema, Mandeep Singh
35. Explore the Feeding Practices on Health Outcome of Infants Among Mothers in Pediatric Wards at AIMS, Kochi 186
Preetha James, Anila K P
36. Diosmetin Retrieves the Hippocampal Neuropathology on Alzheimer’s-Like Ethanol-Induced Cognitive Impairment Rat Models 191
Sasikumar, Subamalani S, Ramaswamy, Jamunarani Srirangaramasamy
37. Effectiveness of an Intervention Module in Improving the Knowledge, Attitude and Practices Regarding Diabetic Retinopathy in Diabetic Individuals in a Tertiary Care Teaching Hospital in Coastal Karnataka 198
Tejaswi Pagadala, Kavitha T.C, Karan Giriyan, Keerthi Haripriya, Panchajanya Paul, Ajay Pal Singh, Rajesh Kamath
38. Level of Activity and Obesity among High School Children 205
Shalimol U.S, SudhinaSudhakaran, Dheeraj K Kumar
39. Nitric Oxide Levels in Chronic Renal Failure Patients and Maintenance Hemodialysis in Comparison to Healthy Controls 210
Salma Mahaboob R, E Prabhakar Reddy
40. Self-Esteem and Adolescents’ Perception Regarding Maternal Parenting Style 215
Reshma K Sasi, Josy A Mathew

41. Lean Manufacturing Process Establishment for Lead Time Reduction in Pump Manufacturing Industry Used for Health Care Applications	221
<i>J Logeshwaran, RM Nachiappan</i>	
42. Evaluation of Teachers' Knowledge about the Early Detection for Mumps Diseases at the Primary Schools in Al-Hilla City	229
<i>Amean Ajeel Yasir, Ali F Abdul Hussein</i>	
43. Analysis Factor Influence with Waiting Time for Elective Surgery in General Surgical Outpatient Clinic	233
<i>Akhyarudin Noor, Izaak Zoelkarnain Akbar, Husaini, Roselina Panghiyangani, Lenie Marlinae</i>	
44. Occupational Stress of Nurses Working in the Academic-Related Sectors	238
<i>Mustafa Naim Abdullh, Alya Khudhair Abbas, Buthaynah Shaheed Yaser</i>	
45. The Effect of Service Quality and Operational Benevolence on Patient Satisfaction and Their Interest in Re-Hospitalization	243
<i>Devy Halim, Agustinus Johannes Djohan, Roselina Panghiyangani, Husaini, Lenie Marlinae</i>	
46. Message-Based Interaction (MBI) Mobile Phone Platform to Expedite Counselling and Education to HIV Patients in Developing Countries	249
<i>Alfred Coleman</i>	
47. Comparison of the Effects of Chlorhexidine Mouthwash with Jaftex in Periodontal Index	255
<i>Mahmood Jahanghirnejad, Fatemeh Babadi, Erfan Safikhani, Ali Asghar Hemmati, Yadollah Amiri</i>	
48. Identification of Health Service Requirements in HIV/AIDS Patients: A Phenomenological Study	260
<i>Kumboyono Kumboyono, Yulia Candra Lestari, Dini P Wijayanti</i>	
49. Diagnosis of HCV Infection in Renal Chronic Infection Patients by Using ELSA and RT-PCR in Tikrit City	265
<i>Hala Mohammed Majeed</i>	
50. Impact of Dietitians in Errors Associated to Parenteral Nutrition Prescription	271
<i>Mina Bahrami, Seyed Mohammad Hosein Mousavi Jazayeri, Farhad Soltani, Mahboubeh Rashidi, Fatemeh Azizi-Soleiman</i>	
51. Critical Care Nurse's Capacities to Express a Caring Relationship with Patients in Teaching Hospitals	277
<i>Sadeq AL-Fayyadh</i>	
52. A Strategic Framework for Effective Utilisation of eHealth Tools by Medical Doctors in Zimbabwe's Public Hospitals	284
<i>Furusa Samuel Simbarashe, Alfred Coleman</i>	
53. Self-Esteem, Sexual Values and Sexual Risk Behavior among Undergraduate Students in the Northern Thailand	289
<i>Jirapat Longkul, Supang Wattanasoei</i>	
54. Mothers' Beliefs Toward Care of Neonatal Jaundice in Pediatric Teaching Hospital in Karbala City	295
<i>Hassan Saud Abdul Hussein, Afifa Radha Aziz</i>	
55. The Analysis of Behavioral Risk Factors on Periodontal Diseases in the Hospitalized Public Health Centre of Cempaka Region Banjarbaru	301
<i>Anderi Fansurna, Ardik Lahdimawan, Adenan, Husaini, Eko Suhartono, Roselina Panghiyangani</i>	

56. The Effect of Supplementary Feeding Program for Chronic Energy Deficiency Pregnant Women on Hb Concentration, MUAC, and Gestational Weight Gain in Indonesia 306
Henrick Sampeangin, Veni Hadju, Saifuddin Sirajuddin, Andi Imam Arundhana Thahir, Abdul Razak Thaha
57. The Compliance of Fall Prevention Protocol through Patients with High Risk of Fall 313
Bayan Almatari, Sahar Alyahya, Turkiah Alotaibi, Winnie Philip, Kavita Sudersandas, Galib Al-Gahmdi, Fayz Alshahry
58. Effectiveness of an Educational Program on Nurses' Knowledge Concerning Nursing Management for Patients with Compound Fracture at Orthopedic Wards in Medical City Directorate 321
Hussein Hadi Atiyah
59. The Impact of Compensation, Career Development, and Organizational Culture Towards Nurses Commitment at Suaka Insan Hospital Banjarmasin 327
Sutikno, Rosihan Adhani, Eko Suhartono, Husaini, Bahrul Ilmi
60. Evaluation of Teachers' Knowledge about the Early Detection for Chickenpox Diseases at the Primary Schools in Al-Hilla City 332
Ali F Abdul Hussein, Amean Ajeel Yasir
61. Influencing Factors of Marital Satisfaction in the Married Migrant Women from China 337
Soon Jung Yoon, Hee Kyung Kim
62. Planning an Energy Management Program based on Hospital Electricity Consumption in a Tertiary Care Hospital in South India 344
Shruti Billore, Kavitha T C, Namesh Malarout, Ashalata Pati, Aswathi Raj L, Biju Soman, Rajesh Kamath
63. Intention to Stay Model of Nurse Staff in Hospital 351
Nurmiati Muchlis, Fendy Suhariadi, Nyoman Anita Damayanti, Ah. Yusuf, Heru Santoso Wahito Nugroho
64. Socio Demographic Profile in Relation to Care Givers of Persons with Permanent Disabilities Attending Rehabilitation Centre in H.D. Kote Taluk, Mysore District 356
Prakash Boralingiah, Arun P Baby, Praveen Kulkarni
65. Comparative Evaluation of Aluminum Foil and Air/Water Spray as Temperature Control Method Using Direct Provisionalization 361
Sharuti Y, Vidya K Shenoy, Shobha J Rodrigues, Thilak Shetty, Umesh Pai, Sharon Saldanha, Puneeth Hegde
66. Analysis of Environmental Health Risks Resulting from Exposure to Pollution Materials 368
Isa Ma'rufi, Eri Witcahyo, Heru Santoso Wahito Nugroho
67. Comparison of Quality of Impression and Clinical Performance after Gingival Displacement with Magic Foam Cord and Gingival Retraction Cord - An in vivo Study 374
Rohan Bandi, Thilak Shetty, Shobha J Rodrigues, Mahesh Mundathaje, Srikant N, Sharon Saldanha, Puneeth Hegde
68. A Study on Effects of Authentic Leadership on Job Stress, Self-Efficacy, Organizational Effectiveness 380
Eun-Mi Park, Joung-Hae Seo
69. Level of Knowledge of the Elderly in Local Communities on the Swallowing Disorders After Stroke and Related Factors 387
Haewon Byeon, Seonghun You, Sunghyoun Cho

70.	PKI Management of Cooperative Intelligent Transport System	392
	<i>Jin-Keun Hong</i>	
71.	Torque Characteristics of Motor Load Type Exercise Equipment Based on Four-Bar Linkage	398
	<i>Dong-Gi Kwag, Jeong-Hwan Bae, Hong-Won Kim</i>	
72.	Marital Relationship Quality and its Association with Job Insecurity, Job Burnout and Positive Thinking	403
	<i>EunHee Park, Hae-Ryoung Park</i>	
73.	Plans for Stadium Usage after the International Mega Sporting Event: The 2018 Pyeongchang Winter Olympics	409
	<i>Jung-Heui Oh, Jai-Woo Oh, Kwang-Min Cho</i>	
74.	Improvement Measures for Referee Operation System based on the Systemicity and Professionalism	416
	<i>Mi-Suk Kim, Il-Gwang Kim, Jai-Han Ahn, Jae-Hak Lee, Sang-Wan Cheon</i>	
75.	A Study on the Effect of Organizational Culture Types on Consulting Satisfaction - Focused on the Moderating Effect of Reliability and Responsiveness, Types of Consulting Service Quality	422
	<i>Hye-ran Yoon, Do-sung Na</i>	
76.	The Mediation Effect of Technical support service Quality between Product Quality and Relationship Performance in B2B Marketplace -Focus on Face to Face Service Quality and Non-Face to Face Service Quality	432
	<i>Sang-Jun Lee, Yen-Yoo You, Sang-Hyun Kim</i>	
77.	The Influence of Infant Teacher's Literacy Education Ability on Infant's Peer Competence	440
	<i>Mi-Hui Bak, Sung-Je Cho</i>	
78.	A Study on the National R&D Outcomes Information Trend Analysis	446
	<i>Jungho Seok, Minwoo Park, Wooseung Cho</i>	
79.	An Incremental Learning Algorithm with Extended Data Expression	451
	<i>Jong Chan Lee</i>	
80.	A Study on the Effect of Convergence Patent on Corporate Management Performance	457
	<i>Hwan-Jo Jung, Yen-Yoo You, Jung-Wan Hong, Seok-Kee Lee</i>	
81.	Mediating Effects of Hope and Organizational Effectiveness between Authentic Leadership and Turnover Intention	461
	<i>Chang Seek Lee, Ha Young Jang</i>	
82.	Effects of 3D-Printing Linked Physical Education STEAM Program on Learners' Problem-Solving Ability	468
	<i>Gun-Sang Cho, Ik Young Chang, Young-Jun Choi, Eun-Surk Yi</i>	
83.	A Study on Collaboration Performance based on Convergence Business and Technology Commercialization on Innovative Enterprise	474
	<i>Kyung-Oh Kim, Yen-Yoo You, Jin-Taek Jung</i>	
84.	Factors Influencing Self-esteem of Korean Adolescents	481
	<i>Yeon Ran Hong, Eunyoung Do</i>	

85.	Studies on Burden, Depression and Self-Efficacy as Predictors of Health Promotion Behavior of Chronic Renal Failure Patient Caregivers	489
	<i>A Young Park, Ja-Ok Kim, Hae-Ryoung Park</i>	
86.	Development of Functional Spectacle Lens with Photo-Discoloration and Ultraviolet Blocking Function	495
	<i>Doo Hee Han</i>	
87.	A Study on the Scope and Methodology of Language Inscription in Northeast Asian Sea Region of the 4th Industrial Age	501
	<i>Min-Ho Yang, Joon-Hwan Kim</i>	
88.	A Comparative Study of the Differences in Legal Requirements and Technical Coverage for the Right to be Forgotten in the GDPR Era	507
	<i>Mina Shim, Hye-Kyeong Ko</i>	
89.	The Development of an Occupation-based Activity Program for the Elderly with Sight Loss and Mild Cognitive Impairments	513
	<i>Kyoung-young Park, So-Yeon Park, Won-Mee Jeong</i>	
90.	A Study on Perception of Makeup Behaviors of Female Middle and High School Students	518
	<i>Jeong-Yeon Park</i>	
91.	A Study on the Effect of the Servant Leadership Style of Hotel Managers on Employees' Trust	524
	<i>Dong-Heui Choi</i>	
92.	Group Positive Affect Diversity and Group Creativity: Mediating Role of Groupthink and Moderating Role of Affective Fit Perception	531
	<i>Moon Joung Kim</i>	
93.	A Study on the Perception of Judges of International Ad Awards toward Ambiguous Advertising: In Creative Perspective	537
	<i>Woon-Han Kim</i>	
94.	A Study on the Relationship between the Organizational Loyalty and External Happiness of Internal Employees in Professional Sport Clubs According to the Type of CSR Activities	541
	<i>Il-Gwang Kim, Ja-Young Kim, Joo-Young Kim</i>	
95.	Effects of Home-based Board Games Programs on Cognition and Depression for Elderly with Mild Cognitive Impairment - Pilot Study	546
	<i>Sung-Ryoung Ma, Byung-Jun Cho, Bo-Kyoung, Song</i>	
96.	Analysis on the Use of Social Media as a Collaboration Tool by Korean Science and Technology Researchers	553
	<i>Mi-Hwan Hyun, Dong-Gu Shin, Wan-jong Kim</i>	
97.	Effects of Manipulation on Different Chopstick Materials to Age and Gender of School Aged Children	560
	<i>Byung Il Yang, Bo-Kyoung Song, Man-Seok Han</i>	
98.	The Effect of Consultant's Ability on Customer Satisfaction, Financial and Non-financial Performance	565
	<i>Sung-Yoon Chei, Yen-yoo You</i>	

99.	A Study on Effect of Technological Innovation and Patent Competency on Business Performance	571
	<i>Eun-Mi Park, Joung-Hae Seo</i>	
100.	The Influencing Factors for Profit of Office Building Management	580
	<i>J J Kim, J A Park</i>	
101.	Impacts of Innovation Motives and Activities on Innovation Performance	585
	<i>Young-Ki Kim, Seong-Taek Park</i>	
102.	Review of Recent Online Judge System	592
	<i>Youngseok Lee, Jungwon Cho</i>	
103.	The Direction and Prospect of Curriculum Research for School Music Education in 4th Industrial Revolution	597
	<i>Jihyun Park</i>	
104.	Understanding the Experience of Abused Children: A Qualitative Study through Drawing and Storytelling	604
	<i>Jeong-Sook Lee, Kyeong-Ouk Jeong</i>	
105.	A Study on the Intention to Use Korean Internet - Only Bank Service - based on Technology Acceptance Model	609
	<i>Tae-ho Yoon, Yen-yoo You, Jin-taek Jung</i>	
106.	The Effects of the TPACK-P Education Program on Teaching Expertise of Pre-service Teachers'	616
	<i>Seong-Won Kim, Youngjun Lee</i>	
107.	The Effect of Resistance Strength Training on Muscular Function of the Leg Joint	622
	<i>Byung-Jun Cho, Bo-Kyung Song, Man-Seok Han, Seon-Rye Kim</i>	
108.	Learning Window Design and Implementation based on Moodle-based Interactive Learning Activities	626
	<i>Dae-Hyun Lee, Yong Kim, Yen-Yoo You</i>	
109.	Comparing the Placement Time of Stop-motion and Moving-motion	633
	<i>Soon-Ho Kim, Chi-Su Kim</i>	
110.	A Study on Influencing Factors of Technology Commercialization Competence of Small- and Medium-Sized Companies	638
	<i>Seon-Hoo Kim, Yen-Yoo You, Cheon-Geun Choi, Mun-seok Cho</i>	
111.	Key Factors of SMART Learning Environments for Language Classrooms	646
	<i>Keun Huh</i>	
112.	Relationship between Work-Life Balance and Job Engagement	651
	<i>Hyungju Lee, Geonil Ko</i>	
113.	Research on the Importance of IT Factors in the Purchasing of Housing using AHP	657
	<i>J J Kim, S H Choi</i>	
114.	Tourism Omnichannel Study through Analyzing Channel Choice Factors' Influences on Satisfaction and Purchase Intention in the Stages of Search and Purchase on Data Technology Period	663
	<i>Hyun-Jee Park, Bong-Gyu Park</i>	

115.	Study on the Status and Improvement Plans of the Environmentally Friendly Product Certification System	669
	<i>Jin-Young Jeon, Boo-Young Jeon, Kwang-Hyun Ro</i>	
116.	Regulation Improvement of Cyclotrons in the Republic of Korea through Analysis of Radioactivation and Questionnaire on Operation Status	675
	<i>Da Yeong Gwon, Yongmin Kim, kyu-young Jeong, Nam-Suk Jung, Hee-Seock Lee</i>	
117.	A Study on the Standard Platform Model for CSB Business	681
	<i>Jong-Yul Kim, Kwang-Hyun Ro</i>	
118.	Stress Coping Strategies Influencing College Adjustment and Academic Satisfaction in Nursing Freshmen in Korea	687
	<i>Yoon Hee Cho, Heun Keung Youn, Joohyun Lee</i>	
119.	Effects of Good Behavior Game as an Interdependent Group Contingency on Decreasing Disruptive Behaviors of Young Children with Autism Spectrum Disorder	693
	<i>Daniel Moonbong Yang</i>	
120.	Development of Children's Creative Cooking Education Program Integrated with Online and Offline Using Cooking Videos	700
	<i>Hyoung Jai Kim, Hye Joung Hyun, Hyun Chul Jeong</i>	
121.	Study of Evolution Pattern of Seal	706
	<i>Joonho Choi</i>	
122.	Study on the Development of Arts and Culture Education Program Based on C-mooc Interaction Model	712
	<i>Mi-Seung Yun, Hee-Seung Lee, Byung-Man Kim, Seong-Won Kim</i>	
123.	Effects of Simulation-Based Integrated Education on Academic Self-efficacy and Clinical Judgment for Senior Nursing Students in the Republic of Korea	716
	<i>Myung-Ock Chae, Ahrin Kim</i>	
124.	Impact on the Quality of Life and Self-Esteem of the Continuing Education Students According to the Five Elements	723
	<i>Won-Hee Kim, Sung-Je Cho</i>	
125.	A Study on the Whitening Effect of Fruit Extracts and the Changes in the Components of the Teeth	729
	<i>Jung-Hyun Lee, Sung-Suk Bae</i>	
126.	Competitive Strategy for Paradigm Shift in the Era of the Fourth Industrial Revolution: Focusing on Business Model Innovation	736
	<i>Lee, Min Jae, Jung, Jin Sup</i>

ABSTRACT

Background Pegringsingan weaving products is a part of handicraft or home industry. They are still confessed at present and produced by simple technology with hand in hand. This activity as a business of income from the most of women in Tenganan village of Manggis sub district, Karangasem Regency. A work position with no planned well and they do not use a tool instruments for helping their working correctly, it is caused a subjective complaints of the workers so the production is not maximally and will cause the productivity of the workers come down. Woven products workers is required a carefulness and neatness of the workers, by long sitting position on the flour covered by something material. It is not aware of this problem into the anatomy and physiology of the workers and they will have a lot of complaint, sick, or pain on their next, hand, low back, anus, thigh, eyes. It is caused static work load frequently, so that they will be to come a decrease activity and low motivation, it's activity and the work is not done efficient and effective.

Objective The variable that is measured in this study is decrease workload, subjective complaint, work efficiency (long work), and work productivity.

Methods The research has been studied to the sixteen weaving workers that were chosen without rules with treatment by subject program with cross over design, its analyses unit considering group variance. It has been intervened by work positions with supporting tool for instant 'peliper, tinglik, por (supported by sponge), barble, and using eyes glasses and group workers.

Results This study is analyzed by t-paired, and there is a significant work load reduction ($p < 0.005$), which is the pulse of the workers come down from 89.62 beats per minutes to be 82.56 beats per minutes (± 5.60) in the same of the light work load category. The subjective complaints of the work load come down showed significant value ($p < 0.005$) that is from Nordic body map score 56.92 (16.14) to be 28.86 (7.32). By the efficient work 7 hours a day with support tools, it is to be come the productivity increase (0.34%) and work productivity (7.9%) significantly ($p < 0.005$).

Keywords: Woven supporting tools; subjective complaint; productivity; Pegringsingan weavings

INTRODUCTION

Pegringsingan weavings is an heritage home industry which combines art and simple technology fully

produced by hand. To make *Pegringsingan* weavings is the job of some of women in *Tenganan* village, in Manggis sub-district, Karangasem regency. Based on preliminary survey, the weaving process is done by women workers by themselves, starting from making the threads, coloring, and weaving. Weaving is a manual job using muscle power, the body locomotive organs, by sitting on the floor, with simple mat, and legs straight to the front.

An unwell-designed working condition could create subjective complaints, working loads and works can be not efficient, which could caused decreasing in work quality^{1,2,3}. Weaving job unconsciously could make a forced pose that is not according to natural pose of the worker, at the end will caused tiredness and or neck pain, shoulder, arms, waist, butt, hips and legs. So the work cannot be done effective and efficiently^{4,5}.

Based on preliminary survey, founded that average working artery pulse of the weavers is 84,62 per minutes, and subjective complaints as follows: wrist pain and pain on legs from the knee down average 46,03%, weaken in activities 68,4%, weaken in motivation 38,6%, physical tiredness (after working more than 3-4 hours) 78,2%, complains on eyes 42,5%, complains on fingers 72,4%.

Sitting position on the floor with 90 degree angle between *trunk* and *thigh*, slowly will make the *trunk* stressed out which caused flexi on the lumbar-spinal¹. With that position for a long period of time, will occurs tiredness and possibly caused the organ degradation⁶.

Through a participatory approach to the workers and operator (*Kelian Banjar Tengah Tegeh Tenganan*), there are some alternatives in order to reduce subjective complaints and the way to increase productivity, such as working position improvement by adding supporting equipment: 1). Using eyeglasses, 2). Using *barbel* on fingers during rest time, 3). Using *tingklik* short stool, 4). Adding kapok cushion on *por* and 5). Using *plipir*. The position improvement alternative by adding supporting equipments was chosen because considered easy to do, also by their request, hence it could reduce subjective complaints and increase productivity.

MATERIALS AND METHOD

This research is an experimental design with *treatment by subject* in the shape of *cross over design* and the analysis unit is considering group's *variance* not individual *variance*. Research held in *Tenganan* village, in Manggis sub-district, Karangasem regency.

Women weaving workers resides in Tenganan village on the list is 65 persons. From that number sample 18 persons that meet the inclusive criteria is chosen. In this case 16 persons was chosen randomly according to *Pocock* formula⁷.

Data is presented in table and textual form, then processed and analyzed using statistic analysis to test

the normality of productivity and working load, between control and treated ones using *Kolmogorov Smirnov* (KS) test; evaluation of the working duration between control and treated ones using *t*-Paired test; ; evaluation of the working load between control and treated ones using *t*-Paired test.

RESULTS

Subject's characteristic data after evaluated using KS test, shown that it's normally distributed ($p > 0.05$).

Tabel 1. Tenganan Pegringsingan Weavers Characteristic

Variable	Average	Deviation Standard
1. Age (years)	34,81	± 5,10
Height (cm)	158,310	± 7,32
Weight (kg)	59,69	± 4,97
Blood Pressure :		
- Systole (mm Hg)	120	± 0,00
- Diastole (mm Hg)	70	± 7,32,00
Working Experience (years)	15,50	± 7,82

Anthropometry data characteristic of research subjects with calculation of persentil 5, 50 and 95 can be seen in Tabel 2.

Tabel 2. Persentil 5, 50 and 95 from Anthropometri Data

	Persentil		
	5 th	50 th	95 th
Waist width (cm)	32,56	34,14	37,30
Butt width/length (cm)	37,00	38,50	40,00
Leg length from knee to sole (cm)	49,62	52,81	56,00
Feet range from butt to sole (cm)	82,28	88,24	95,48
Leg length from butt to knee (cm)	46,14	50,84	54,02
Length from knee to sole (cm)	46,00	51,50	57,00

Working climate condition consists of Wet Temperature, Dry Temperature, and Relative Humidity, are still in normal range. Working climate condition during the research is shown in Tabel 3. From the Average data of working climate that consists Wet

Temperature, Dry Temperature, and Relative Humidity after evaluated using K.S test, proofed that the data is in normal distribution ($p > 0.05$).

Table 3. Average Working Climate

No	Variable	Average \pm Dev.Std
1	Wet Temp ($^{\circ}$ C)	27,16 \pm 0,81
2	Dry Temp ($^{\circ}$ C)	28,58 \pm 1,21
3	Relative Humidity (%)	79,66 \pm 1,21

The weaving cloth production using existing position (control) and new one using supporting equipments *peliper*, *por* with foam cushion, using eyeglasses and massaging barbell during rest time (treated) in

this research measured in the width of product (cm^2) of woven cloth produced in 7 hours in a group. The average of production in existing position (control) is 349,68 ($\pm 111,79$) cm^2 , while the average production with supporting equipments position (treated) is 352,12 ($\pm 112,27$) cm^2 . The average product of woven cloth (control and treated) after evaluated using *paired t-test* is significantly different ($p > 0,05$).

Resting pulse per minute, Working pulse per minute, Recovery pulse per minute, and Work pulse per minute in control (weaving in existing old position) and treated (weaving with supporting equipments position *peliper*, *por* with foam cushion, using eyeglasses and massaging barbell during rest time) shown in Tabel 4.

Table 4. Rest pulse, working pulse, recovery pulse, and Work pulse

Variable	Control (ppm)	Treated (ppm)	P
	Average \pm S.D	Average \pm S.D	
Resting pulse	80.25 \pm 2.68	80.50 \pm 2.20	0.78
Working pulse	89.62 \pm 3.96	82.56 \pm 5.60	0.01
Recovery pulse	79.75 \pm 4.64	75,31 \pm 4.84	0.00
Work pulse	8.75 \pm 4.55	2,06 \pm 0,85	0.00

ppm = pulse per minute. SD = standard deviation. p = probability

Productivity incline by changing the working position, from weaving in existing old position (control) in working position using supporting equipments (treated), from above calculation founded that the average control productivity: 5,33 ($\pm 1,41$) is lower than the treated one: 21,96 ($\pm 0,13$). From both productivity value after evaluated using statistic test *t*-Paired shown significant different ($p < 0.05$).

Table 5. Average Working Productivity of Control and Treated

Variable	Average (\pm Std.Dev)	Value p
Working Productivity : Control (old working position) Treated (with support equipments)	5,33 (\pm 1,41) 21,96 (\pm 0,13)	0.001

Subjective complaints data before and after work measured using *Nordic Body Map*. Average Data and Standard Deviation shown in Tabel 6. Subjective complaints Score of control : 56,92 ($\pm 16,14$) bigger than treated one: 28,86 ($\pm 7,32$) with *t*-Paired test founded $p = 0,00$ means significantly different ($p < 0,05$).

Table 6. Average and Standard Deviation of Subjective complaints of Control (C) and Treated (T)

Variable	Average \pm S.D	P
Subjective Complaints change: Control (old working position) Treated (with support equipments)	56,92 \pm 16,14 28,86 \pm 7,32	0,00

DISCUSSION

From Subjects characteristic including body weight dan hight, founded that the average body weight 53,19 (\pm 2,07) in the range of 48 kg - 65 kg, average 53,19 (\pm 2,07) kg, while height is in the range of 148 cm - 170 cm, average 153,50 (\pm 2,00) cm. By observing the comparison of that body weight and height, shows that weavers in *Tenganan Pegringsingan* has a normal weight and height or ideal according to *Broca* index, while body weight is ideal when the value is smaller than the height deducted by $100 \pm$ (the value than times 10%)^{8,9}.

Ambient Temperature in *Tenganan Pegringsingan* during research between 08.00 - 17.00 wita is; wet temperature is around $26^{\circ}\text{C} - 28,50^{\circ}\text{C}$ average $27,16 (\pm 2,50)^{\circ}$, dry temperature is around $27^{\circ}\text{C} - 30^{\circ}\text{C}$ average $28,58 \pm 3,00^{\circ}\text{C}$. Topographic of *Tenganan Pegringsingan* is located in high plateau with lush trees, has a lower temperature compared to other research location. Lowest Ambient Dry temperature is 27°C considered comfortable. The lowest threshold is 21°C and the highest is 30°C . Relative Humidity is around 78 % - 81 %, average $79,66 (\pm 3,00)\%$ is still in comfortable range with threshold of 70% - 80%¹⁰.

Treatment given to the weavers, by giving working position on a supporting equipment called *peliper*, sit on *tingklik* small stool, *por* (with foam cushion) on the waist, using eyeglasses, and massaging *barbel* during resting time for 5 minutes each time. With those several treatments, the weavers has a chance to reduce their tiredness, because the weight of the body caused by sitting on the floor and the legs to the front rests on the feet in a long period of time, possibly caused cumulative tiredness, and feet organ *degenerative*^{1,11}.

Weaving job need accuracy since the tools is operated by each women worker with high sight accuracy. So it

needs eyeglasses to operate, beside to avoid the eyes tiredness it is also to avoid the thread dust get in into their eyes, hence the products become maximum result^{4,12}. For one unit of Control Group (C) weavers, founded that average production of cloth daily in existing old position is $349,68 (\pm 111,79) \text{ cm}^2$. This is different with the job using new working position, where one unit Treated Group (T) produced $352,12 (\pm 112,2) \text{ cm}^2$ of cloth. This is mean working with supporting equipments is more effiecient by producing 2.44 cm^2 of cloth daily or 0.34% compared to old position.

From the research we know the subject's resting pulse is not significantly different ($p > 0,05$) between old working position (control) and working position using supporting equipments (treatment). Old working position (control), average resting pulse is $80.25 (\pm 2.68)$ pulse per minute, while with working position using supporting equipments (treatment) is $80.50 (\pm 2.20)$ pulse per minute. It means that subject's resting pulse between both condition (control and treated) relatively the same, or we can say the starting condition (before working) is the same.

Average Work pulse before and after treatment declined by 7.06 pulse per minute (4.1%). With statistic test *t*-Paired founded $p = 0.01 < 0.05$. it means subject's working pulse between both condition (control and treated) significantly different, hence the end condition (after working with supporting equipments) is better than the old condition (when on existing working position). This situation shows that weaving job can be objectively seen from physiologic reaction such as working pulse increase, it is not only related to how hard the work is, but also related to accuracy and the frequency accuration^{13,14}.

Recovery pulse on subjects with old working position (control) shows decline from average $79.75 (\pm 4.64)$ to (working position using supporting equipments) average $75,31 \pm (4.84)$ pulse per minute. It shows that the working load is considered easy, because the lower the recovery pulse, means that the working load being done considered easy or the subject's condition is good, usually when condition is good and the work is easy, so within 5 minutes the recovery pulse is back to normal¹⁵.

Working productivity on Treated (working position using supporting equipments) is $23.06 (\pm 14,32)$ and on

Control (old working position) is 6.09 ($\pm 3,24$) shows significant difference ($p=0.001 < 0.05$). This is caused by the decrease of working pulse and also by the increase of product by using supporting equipments. Hence we can say that using the supporting equipments *peliper, por* (with foam cushion, *tingklik*, eyeglasses and massaging *barbell* (during resting time) in this research can boost productivity of weavers in *Tenganan Pegringsingan* up to 60.93%. The ergonomic changes in working position, could increase economic value related to performance, indirectly reduce operational cost that have to spent¹⁶. In other words, productivity boost means efficiency boost¹⁷.

The working position with supporting equipments (treated) can reduce subjective complaints of the weaving workers in *Tenganan Pegringsingan* significantly ($p < 0,05$). Before practicing working position with supporting equipments, subjective complaints shown by the value of *nordic body map* up to 56,92%. By practicing working position with supporting equipments, the value of *nordic body map* becomes 28,86 %, that means the subjects felt their working load become easier and the feeling of disturbance can be solved^{10,12,18,19}.

CONCLUSION

The different of working and resting pulse also decreasing from 9.37 pulse per minute that shown light working load, becomes 2,29 pulse per minute which also indicating light working load.

Subjective complaints of the weavers also declined. It shown from the score before using supporting equipments was 56,92%, then becomes 28,86%.

Working duration or time needed to weave is still the same, 7 hours a day, before and after conditioning, hence the efficiency is remain the same.

With the decrease of working load, the same subjective complaints and working duration efficiency, the productivity is increasing 16.97%, because with the decline of working load then the ratio of products (*output*) compared to working load and working duration (*input*) becomes bigger.
